Inspired by the vibrant colours of the Indian flag, [Tiranga Game](#) delivers a colourful and thrilling gaming experience where players can test their luck and win real money from the comfort of their homes.

Designed for mobile users, the platform focuses on simplicity, speed, and instant rewards. Whether you are a beginner or an experienced gamer, Tiranga Game provides easy-to-understand games that anyone can play within seconds.

What is Tiranga Game?

Tiranga Game is an online real-money gaming platform that offers a variety of prediction and casual games. Its main highlight is the **colour prediction game**, which allows players to bet on colours and win cash rewards based on correct guesses. The platform is lightweight, mobile-friendly, and supports quick deposits and withdrawals using UPI payment methods.

Unlike complicated casino-style apps, Tiranga Game keeps things simple. Players do not need special skills or strategies. All they need is a small amount of money, a few minutes of time, and the excitement to play.

Colour Prediction Game – Fast, Simple, and Exciting

The **colour prediction game** is the heart of Tiranga Game. It is one of the easiest and most popular game formats available online today. The rules are straightforward, making it ideal for new players.

How It Works

Each round lasts about 60 seconds. During this time, players choose one of three colours:

-  Red
-  Green
-  Violet

After selecting a colour, players place their bet. Once the timer ends, the system reveals the winning colour. If the chosen colour matches the result, the player wins money instantly.

Payout Structure

- Red or Green – 2x return
- Violet – up to 4.5x return

Because each round is short, players can participate multiple times in just a few minutes. This fast gameplay keeps the excitement high and gives users many chances to win.

Other New Games Available on Tiranga Game

While the colour prediction game remains the main attraction, Tiranga Game also offers several additional games to keep users entertained. These new features add variety and prevent boredom.

1. Number Prediction Game

In this game, players guess a number between 0 and 9. If the selected number matches the result, they win a higher payout. It's simple, quick, and perfect for players who enjoy lottery-style games.

2. Spin & Win

This lucky spin game allows users to spin a digital wheel and win random prizes. Rewards may include bonus money, cashback, or free game entries. It adds an element of surprise and fun to the platform.

3. Card Mini-Games

Card games are becoming increasingly popular on Tiranga Game. Users can enjoy quick rounds of simple card prediction or upcoming games like Teen Patti-style formats. These games offer a mix of luck and strategy.

4. Daily Task Games

Players can complete small daily tasks such as logging in, playing a certain number of rounds, or inviting friends. Completing these tasks gives extra bonuses or rewards.

5. Puzzle and Quiz Challenges
